## Walk-In Wellness Tests

Knowing your health information is a vital part of living a long, healthy life. We want to make this easy for you!

Waverly Health Center's laboratory offers walk-in wellness screens Monday – Friday from 7 a.m. to 5 p.m. You do not need a health care provider's order to use this service.

### The tests listed below are available:

- **Chemistry Panel, \$30 (chemistry profile that includes diabetes screen, kidney and liver function screen, iron and Lipid profile), (12-hour fast required)**
- **Hemoglobin A1C, \$15**
- **Hemogram, \$20 (white blood count, red blood count, hemoglobin, hematocrit, platelet count)**
- **Hepatitis C, \$30**
- **Prostate-Specific Antigen (PSA), \$15 (Recommended for males over 40 years of age only)**
- **Thyroid Stimulating Hormone (TSH), \$15**
- **Free Thyroxine (Free T4), \$15**
- **Vitamin D, \$40 (12-hour fasting preferred)**

This service is helpful if you have a high deductible health insurance plan or do not have insurance. Must be 18 years of age to use this service.

### To use this service:

- Go to the green entrance registration desk at Waverly Health Center.
- Our staff will give you a form to fill out or you may print the form below and bring it with you.
- Payment by cash, check or credit card is due when you register. Your insurance will not be billed.
- After you have registered, a lab staff member will draw your blood.
- Your test results will be mailed to you within one week. It is important to know that we will not be sending your test results to your health care provider. You are responsible for sharing the results.
- You can request a copy of your test results from WHC Health Information Management Department during normal business hours (Monday through Friday 8 a.m. to 4:30 p.m.)

This service does not take the place of regular health care or replace the need to see your health care provider, but it is an easy way for you to stay on top of health issues you may have.

### Fasting Directions:

*Fast (do not eat) for 12 hours prior to the testing and avoid caffeine products and alcohol. People who are fasting may have sips of water and take medications on normal schedule.*
