

Child Health Outreach Network

What you should know

The Child Health Outreach Network is a school-based program to get students help from a counselor.

The program surrounds students with support.

For More Information

Contact Amanda Ramthun
Community Health Specialist
(319) 483-1361

What you should expect

- Children are referred to the CHON program by the school. This happens in a parent, teacher meeting.
- If parents are interested, the referral will be faxed to the community health specialist at Waverly Health Center.
- The community health specialist will call the parents, explain the program and answer any questions.
- Parents will choose a provider and an intake meeting is set up.

Available Providers

Currently, we have one health provider helping students in CHON.

- Pathways Behavior Services

Why Students Need CHON

CHON is used for many reasons. Below is a list of common issues students get help with:

- Problems in social groups
- Attention issues
- Class behavior problems
- Family Relationships
- Emotional adjustments

All CHON programs are confidential!
